REQUEST FOR CORRECTION OF FILING RECEIPT
(Improper Filing Date Erroneously Accorded by Patent Office)

Commissioner of Patents and Trademarks

Washington, D.C. 20231

Sir:

Enclosed is a copy of the U.S. Patent Office Filing Receipt issued in the above-identified case showing an incorrect filing date. Please accord the patent application the correct filing date of the "Date In" (October 22, 2001) as shown on the "Express Mail" mailing label (true copy provided).

The filing date on the Filing Receipt incorrectly now reads: 12/22/01

The filing date on the Filing Receipt should properly read: 10/22/01

According to 37 C.F.R. 1.10:

“[a]ny correspondence received by the Patent and Trademark Office (Office) that was delivered by the ‘Express Mail Post Office to Addressee’ service of the United States Postal Service (USPS) will be considered filed in the Office on the date of deposit with the USPS. The date of deposit with the USPS is shown by the “date-in” on the “Express Mail” mailing label or other official USPS notation.”

The Applicants are entitled to the filing date of **October 22, 2001** as the date their patent application was deposited with the U.S. Post Office. As evidence of October 22, 2001 being the correct filing date, enclosed are:

- 1) a true copy of the U.S. Post Office Express Mail “Post Office to Addressee” mailing receipt label no. ET642765743US showing the date deposited (“Date In”) as October 22, 2001;
- 2) a true copy of the Patent Application Transmittal Form showing the “Express Mail” label no. “ET642765743US” and a proper certification of Express Mailing on October 22, 2001; and
- 3) a copy of the postcard reflecting the correct date sent, the contents of the package deposited, and the PTO stamping error showing the incorrect filing date.
- 4) a copy of the Filing Receipt mailed 1/30/02 with the incorrect filing date.

Please accordingly correct your database, and issue a corrected Filing Receipt.

Respectfully submitted,

L. Joy Griebenow

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
